About Us

MBA yarns is one of the largest independent yarn merchants and stock holders in Europe. We provide tailored yarn solutions to meet the requirements of a wide range of sectors including apparel, upholstery, technical yarns and knitting yarns. Our experienced sales team has extensive technical knowledge from both the technical perspective and across the wider production processes in a range of textile industries.

Part of a Group

Since its formation in 1970, The SIL Group has grown into a world-class vertically integrated group of specialist textile businesses. Individually and collectively, our brands are recognised on the world stage for their heritage, unrivalled quality, and technical expertise. The group is one of the largest in the UK and employs almost 300 people at multiple sites and our supplier and customer network cover more than 50 countries around the world.

The group spans all of the key textile manufacturing processes – from sourcing and stockholding the world's finest natural fibres to the manufacturing the finest fabrics, our dyers and weavers are market leaders and retain skills that have survived in only a handful of specialist businesses across the world. Being part of this group allows MBA to adopt an agile and flexible approach to yarn trading proactively responding to the specialist demands of our clients.

Our Knowledge & Expertise

Specialists for over 30 years, we offer our customers so much more than just yarn. Our wealth of knowledge and technical know-how provide our customers with the peace of mind that we understand their individual products and processes so that we deliver a specialist solution to their requirements.

Our Global Network

With a truly global network of partners, we provide for our customers both a stock supported service and direct containers. We have over 350 tonnes of natural and blended yarns in stock in both ecru and colours ready for despatch and the group buying power to negotiate the best prices for our customers. All our customers receive excellent service whether its small local businesses or our global manufacturing groups.

Apparel

Whether it's a niche cashmere for fine suitings or a hardwearing blend for jackets, you can trust us to know the best yarn for the job. Innovative or classic we offer a full range of yarns from our stock supported collection.

SUITINGS

We can supply fine count, fine micron yarns in all noble fibres for fabrics seen in such places as Savile Row and the Milan catwalk, right through to blended yarns for career and larger volume high street retail.

JACKETING

Woollen or worsted yarns in 100% natural fibres or a blended mix.

ACCESSORIES

Weaving yarns for a variety of applications from scarves to bags.

KNITWEAR

Wide range of shrink-resist yarns from cashmere to coarse micron wools for use in sweaters and other knitted garments and accessories.

SOCKS & HOSIERY

A wide range of durable yarns suitable for this specialist end use.

Technical Yarns

Technical textiles need experienced technical knowledge. When your yarn needs to perform to a specific standard or tolerance, we can advise and source, adding real value into the production process.

Whether your need is flame-retardant, anti-bacterial, anti-static, anti-abrasion or waterproofing we have a wide variety of solutions working with a number of mills across the globe.

Through our Italian principle, Filidea www.filidea.com we offer:

- **Flame Retardant** – 100% Kanecaron and Sevell Modacrylic brands, and blends with Viscose and Cotton.
- **Protective Clothing** – 100% Kermel Meta Aramid, and blends with other performance synthetic branded fibres.
- **Anti-bacterial** – 100% Amicor and blends with other natural and synthetic fibres.

Upholstery

Whether you're looking for domestic or commercial, luxury or durable, we understand the demands of producing fabrics for upholstery.

AIRLINE, BUS & AUTOMOTIVE

100% natural or blended yarns to produce hard-wearing versatile fabrics for this demanding end-use.

PUBLIC SPACES & OFFICES

From office seating to state-of-the-art new public buildings requiring appropriate textiles we have yarns that will produce attractive and functional fabrics.

TECHNICAL TEXTILES

When your yarn needs to perform to a specific standard or tolerance, we can source and advise whether your need is flame-retardant, anti-bacterial, anti-static, anti-abrasion or waterproofing.

HOME TEXTILES

For settees, cushions, carpets and curtains, our yarns will deliver exciting and desirable fabrics.

Knitting Yarns

Our range of pre-treated specialist knitting yarns are suitable for any knitting application. From everyday knitwear and socks to high-end fashion garments for top designers.

KNITWEAR

A wide range of shrink-resist yarns from cashmere to coarse micron wools for use in sweaters and other knitted garments and accessories.

SOCKS & HOSIERY

A wide range of durable yarns suitable for this specialist end use.

CRAFT & HAND-KNIT

We can cater for small volume craft type orders for hand-knitting yarns some of which are manufactured in our own in-house spinning facility in West Yorkshire.

The Future

The SIL Group and MBA Yarns are creating a bright future for textiles by investing in new technology, refining and constantly developing new yarn blends, textures and colours for contemporary and bespoke designs and responding to the needs of our customers and our supply chain.

Reasons to work with MBA Yarns

OUR GUARANTEE

Our in-house lab and testing facilities ensures the consistency of elasticity, elongation, count, strength and colour of all our yarns.

SOURCED BY US

Our network of technicians deal with mills around the globe to ensure customers get exactly what they want.

WE BUY DIRECT

Our long-term supply relationships mean we buy our raw materials in bulk and pass the savings directly onto our customers.

BESPOKE DEVELOPMENT

Many of our customers have specific requirements if you need something out of the ordinary, we can develop a yarn product for you.

DELIVERY

We ensure you keep your deadlines by delivering as promised using our own group shipping and haulage department.
